

Adarsh Pawar

Student

I am a BCA student of FCAIT GLS University. I love to create websites and build applications by coding and designing. I am desperate to learn many languages and technologies. My objective is to work in an organization which provides me with ample opportunities to enhance my skills and knowledge along with contributing to the growth of the organization. I am looking forward to roles that will help me realize my potential by exploring the various aspects of this field.

PROJECTS

Automated TimeTable Generator (08/2021 - Present)

- It is a web application which generates a time table automatically according to your preferences.
- The system takes data like subjects, faculties etc.. and also constrains like maximum lectures, no clashes of lectures etc.. and generates a time table accordingly.
- This is a group project created by me and my classmates, and so I am able to contribute in a team project as well.
- Technologies used:- React, MySQL, PHP, Bootstrap.

Online World (06/2020 - 07/2020)

- It is an angular-based project.
- This is an informative website which provides the steps to download and install a particular software in a computer.
- You can read the steps as well as watch the tutorial video for downloading and installing.
- Technologies used:- HTML5, CSS3, JavaScript and Bootstrap4 online world.

Personal Portfolio (10/2021 - Present)

- This is my personal portfolio.
- It is made by pure HTML and CSS.
- For version control I have used github and git.
